## **BIOGRAPHY**

Gultekin Gurdal is a professional librarian with a wide range of skills especially in electronic librarianship area, including electronic library management, library systems, web page design, online databases, eJournals and eBooks, multimedia hardware and applications. Besides, he experienced in library buildings and design, and operations planning. He is recently working on the library management, performance measurement, marketing of information services issues and open access issues.

He also served as the Chairman of the Turkish University Libraries Consortium (ANKOS) between the years 2008 and 2012. It is one of the biggest consortiums in Europe and Middle East with over

140 member institutions, dealing with more than 60 international publishers.

Gultekin has been Library Director at Izmir Institute of Technology (IYTE) since 2005. He previously held positions at Bilkent University, Turkish Scientific Technical Research Council, Sabanci University and TOBB University.

He participated in OpenAIREPlus completed in 2014 and OpenAIRE2020 projects completed in June 2018 and now he works at OpenAIRE Advance project. He is one of the member of OpenAIRE Research Data Management and Open Science Policies task groups. He is also one of the member of "Open Science Committee" which was founded by The Turkish Scientific and Technological Research Council in 2015 and one of the member of "Open Access and Open Science Working Group" which was founded by The Turkish Higher Education Council (CoHE) in 2018. He is a close follower and practitioner of all kinds of scientific and technological development in the field of library/information science.

Gultekin holds a Bachelor of Library Science from Hacettepe University and MBA degree from Kocaeli University. He maintains active membership with the following organizations; Turkish Librarians Association, University Librarians' Association, LIBER, COAR, EuroCRIS, IATUL and ANKOS. He has many publications national and international journal.

Futhermore, he delivered papers at various conferences; his topics include user centered library web pages, new technologies, scholarly communications and information management, performance measurements, eReference applications, social media and open access. He is OpenAIREplus (2nd Generation of Open Access Infrastructure for Research in Europe) project partner in Turkey. OpenAIREplus (2nd Generation of Open Access Infrastructure for Research in Europe) was launched in early December. This large-scale project brings together 41 pan-European partners, including three cross-disciplinary research communities. Likewise, he is coordinator of the ANKOS Open Access and Institutional Repositories Working Group.

He serves on the advisory boards of a number of publishers and plays an active part in meetings and workshops especially in electronic publishing area. He also organizes national and international meetings.

In his spare time, Gultekin enjoys spending time with his 4 years old daughter. He is also a proud father of 19 years old son who followed his footsteps to become a librarian and studies library science at a university.
