Study of Embedded Systems in Computer Engineering

Embedded Systems Track
- EE271 Circuit Analysis
- CENG214 Logic Design
- CENG311 Computer Architecture
- CENG314 Embedded Computer Systems
  - CENG452 Building Software for Embedded Systems
  - CENG451 Advanced Digital System Design
- CENG563 Real-Time and Embedded System Design

Technical Electives
- CENG383 Real-Time Systems
- EE331 Digital Signal Processing I
- EE362 Feedback Control Systems
- CENG384 Microprocessors
